

WESTS ♥ THE ENVIRONMENT

JAN '26

At Wests Group Macarthur we are committed to a stronger, more sustainable future. Check out the latest in sustainability news.

FROM WASTE TO CHANGE

When a team member flagged the number of promotional banners going to landfill, we took action. We're now working with suppliers to recycle banners and close the loop.

BIG NUMBERS. BIGGER RESPONSIBILITY.

With over **23,000 memberships expiring**, we've implemented a **zero-waste solution** to keep thousands of plastic cards out of landfill. Collection boxes at WLC and CC make it easy for expired cards to be recycled responsibly through the company TerraCycle. TerraCycle breaks down and reuses card materials and offsets all shipping emissions, making this a **fully sustainable recycling solution**.

MEASURABLE IMPACT, REAL RESULTS

Recycled plastic membership cards diverted >60kg. Proof that small actions add up to big environmental wins.

CREATING OPPORTUNITY WHERE IT MATTERS

We provide job opportunities for disadvantaged students, equipping them with retail and employability skills, confidence, and pathways to lasting employment.

TRAINING FOR A GREENER FUTURE

Four dedicated environment and sustainability training courses have been developed to empower our greenkeepers with the knowledge to protect and enhance our course.

HAVE YOUR SAY!

We've added a **poll and email link** on our Sustainability page—share your ideas and help shape a greener future.

TRACKING OUR IMPACT

Our **2025 Wests Group Sustainability Scorecard** will monitor water, gas, electricity, and energy usage, keeping us accountable and driving continuous improvement.

GREENING WITH CREATIVITY

The beautifying Lakeside project is exploring **sustainability-inspired artwork** to inspire visitors and showcase our environmental commitment.

BLUE FOR A CAUSE

In partnership with Wollondilly Council, a **tree at Lakeside will be painted blue** to raise awareness for men's mental health through the Blue Tree Project.

Small actions, big stories - from dashboards to blue trees, every initiative reflects our dedication to **sustainability, community, and wellbeing**.
